Kenco Computer Systems

Established 1992

4005 Hastings Street
Metairie, LA 70002
504-269-4357

ABOUT

Founded in 1992, Kenco Computer Systems is locally owned and operated and provides on-site and remote managed IT services to a wide range of individuals, businesses and organizations in various industries. With operations offices in Metairie and New Orleans, Brian and Ken have been supporting local clients with their IT needs for over 25 years. The satisfaction of the customers they serve throughout the Greater New Orleans metro area is always their top priority.

SERVICES

System Administration & Support

We offer full system administration support. This means for those clients that do not have an internal IT department, we can be your IT department! With both remote and on-site support offerings, we can make it so your up time is our priority. We also support mobile devices, working with all operating systems including windows, apple, linux and Mobile (Android/IOS) OS devices.
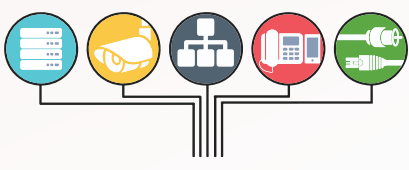

Virtualization & Cloud Computing

Whether you're a new company looking to get started with a minimal investment or an established company looking to increase performance and stability, our cloud based and virtualization services can take you where you need to go. Having partnered with both Microsoft and VMWare We offer a range of virtualization and cloud based solutions to fit your needs.

Disaster Recovery & Support

With over 25 years experience in information and technology services, we are well prepared to guide you down a path that works diligently to prevent disasters. However, should such a disaster occur we are prepared to help you recover quickly and with as little loss as possible. Working from the stand point that the best disaster recovery plan is to avoid it entirely, we focus on system redundancy using virtualization and cloud based technologies. This means that should a system crash occur, it does not eliminate your environment entirely.

Network Infrastructure

Design, Implementation, and administration of your complete network infrastructure. With over 25 years' experience in the IT services industry, and having partnered with companies such as Cisco – Miraki, Dell-Sonic Wall, Asus, and Netgear, we have the hardware resources and the knowledge needed to implement a high speed, high availability, network infrastructure.
